

Ruislip Lido Improvement Programme Update

Ruislip Lido is included in the Council's Civic Pride initiative. The Council will be investing significant sums of money to restore it to its former standard

The proposed works will include:

- Improved and additional car parking
- Raising the water levels
- Fishing facilities
- Improved toilet facilities
- Changing facilities
- An outdoor swimming area
- Boating for adults
- A new paddle boating area for children
- Improvements and investment to the miniature railway
- Improved catering facilities
- Improved access to the site

The Council will work with local residents, the volunteers who run the railway and the Lido Management Advisory Group including Friends of Ruislip Lido etc, on the proposals to improve the whole of the site.

2 Key messages

- The project will provide significant improvements to the Lido for Hillingdon residents and will be in keeping with the local environment
- The Council will ensure that while making the improvements it preserves the 'look and feel' of the Lido, wildlife and the natural environment

3 Development

The council will publish regular updates on the proposals in Hillingdon People and will create a new dedicated section on the council's website. We will include plans as and when available, photos of progress and 'before' and 'afters'.

This will start with a feature in the March/April 2010 edition.
